

HOW TO FILL OUT THIS FORM

Please type or print entries clearly. Complete all information requested for each sheep to be registered. Mail completed form along with the Work Order Form and fees.

The **BREEDER** is the recorded owner of the dam at time of mating.

The **OWNER** is the recorded owner of the dam at time of birth.

MEMBERSHIP NAME is the precise wording that will be entered onto the registration form by the Registry after "OWNER" and is identical to that used on the Work Order Form for Membership Name.

PRIVATE FLOCK TAG OR TATOO NUMBER refers to the unique individual identification number (ID) of the sheep to be registered. Once assigned, this number may not be changed.

The **FLOCK NAME (abbreviation)** is the unique name for your flock. If the flock name is Tunis Acres (TA) and the ear tag identification is "333" then the animal name on the registration will be Tunis Acres TA 333.

The **CHRISTENED NAME** can be any available name in the registry that is not already in use; names are available to NTSRI members. There is a \$25 fee to name all animals. This can be paid at time of registration of new animal and will then be included on the paper. Or an already registered animal can be named by returning the registration paper with the fee, at that time the name will be added and a new paper provided.

Entries on the form must be from dams and sires owned by the breeder and owner. If this is not the case, complete and submit the **VERIFICATION OF MATING** form with the order.

Calculate the amount you owe by completing a **WORK ORDER**.

Double check all entries and fee calculations.

Make check or money order payable to **NTSRI**.

Enclose payment & form (also credit voucher, breeding certificate, ram lease, etc. if appropriate). Send to: **NTSRI**

**PO Box 231, 420A Lincoln
Wamego, KS 66547**

If any questions call: **785-456-8500** or fax: **785-456-8599**

Request priority processing by writing "**RUSH**" on the envelope and form.

Do not combine rush work and routine work on the same form.

Ensure that rush fees are paid in advance.

It is a federal offense to submit fraudulent forms via the US mail.

VERIFICATION OF MATING

When the sire or dam was owned by someone other than the OWNER at the time of mating, parentage must be confirmed by a Breeding Certificate or Ram Lease form. The person selling a bred ewe or leasing a ram should complete the appropriate sections below and pass to the new ewe owner or ram lessee. This completed form should be submitted to the registry when registering lambs from this mating. A Breeding Certificate records exposure up to 157 days from the last day of mating. Lambs born during this period would be eligible for registration. Breeding Certificates and Ram Leases must bear the original signature of the person issuing the documents.

BREEDING CERTIFICATE

The following registered ewes _____,

_____, _____, _____,

_____, _____, _____,

were exposed to a ram with registry number _____.

From (Date) _____ To _____

Signature _____ Date _____

RAM LEASE

I am the owner of the ram with registry number _____.

I have leased him to _____ residing at

_____.

From (Date) _____ To _____

Signature _____ Date _____
